How to prepare for a meeting regarding your Bankruptcy Options

1. Review your finances generally so you can tell me about your income, expenses, assets and debts. Make notes for yourself if you can't remember everything.

2. Bring a copy of your latest tax return, any law suits, collection letters and proof of your income.

3. Bring any organizational documents you have made such as budgets, a list of debts or records of collection letters and calls.

4. Write down questions you have so you don't forget to ask something important.
